01 Wrong battlefield

02 The war wasn't the problem

03 The Gita isn't a book

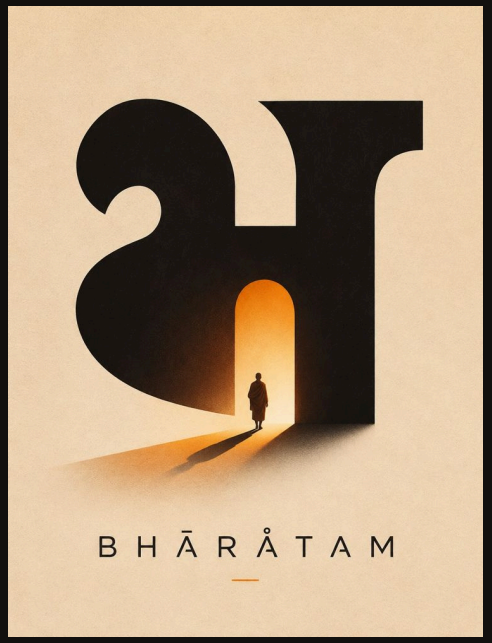

04 The author problem

02 bhāratamverse

A world page. Everything that shapes us, politics included, looked at toward one idea: the Earth as one.

01 भ

02 One Earth, many stories

03 One home

04 No hero, no villain

03 Psych Sync

POVz: the world through other eyes. A mantis shrimp, a chameleon, a spider. Plus visuals on how the mind sees.

About

I make images with AI, and I say so.

I write the idea, direct the image through many rounds, choose what stays, fix what's wrong and sequence the pieces into series that run for months. Each world has its own subject, its own look and its own page on X.

04 Photography: my own photographs, camera not AI.

Tools: Made with ChatGPT and Grok image tools.
